

Manufacturer Suggested Cleaning Recommendations

**CMS 3.0 and ADA compliant Personal Sound Amplifiers
SuperEar® Models SE5000, SE7500, SE9000HP**

The SuperEar® amplifier and accessories can be cleaned with a light application of an alcohol-based disinfectant.

Caustic cleaning agents can prevent health risks but reduce headphone life. All SuperEar® hearing amplifiers come packaged with a pair of comfort foam ear pads on the included headphones to help keep individuals comfortable during extended periods of use. Replacement headphones (SE-HP) and foam pads (EPF200) are available for purchase, however, should something happen while the product is under warranty, please contact us.

In a hospital or long-term care environment, disposable headphone earpad covers (EPC100) can provide economical and inexpensive shields from cross-contamination for multiple headphone users while still providing sound clarity. EPC100 are sanitary disposable headphone earpad covers for small headphones. Soft, comfortable, inert fabric allows MRI scans, and is hypoallergenic, perfect for hospital patients. Our hygienic breathable material allows clear sound quality while maintaining sanitary inter-person use. Easy to apply and replace after each use, Ear Pad Covers can be removed and discarded. The plastic portion of the headphones can be cleaned with a light application of an alcohol based disinfectant.

For added convenience and control, Sonic Technology disposable covers come in a box of 100 covers (50 pairs) for easy storage and distribution.

EPC100 Disposable Hygienic Earpad Covers

- EPC100 are Ideal for hospital, home, and healthcare environments
